FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

EARTHQUAKE IN SAN FRANCISCO.

December 1, 1904.—April 18, 1906.

San Francisco, Cal., December 1, 1904.

Between twenty and thirty shocks in a few days, here they call them "tremblers," and the California citizen has become indifferent to the shakes, some people even sleep through them. But some fine morning these same people who are so indifferent to the warnings of nature, will be "caught napping," as it were, and they will never know whether it was an earthquake or dynamite. At one o'clock this morning nearly everybody in the city was awakened so suddenly by one of those "tremblers" that most of them shook in their beds, and were too weak to rise to the situation until the second, then the third, the fourth and the fifth shake, with a hoist in it, brought most of them out of bed, and on to their feet, all of them "tremblers" indeed. The experience is not altogether a very pleasant thing. I was lying in a profound slumber, and the first shock awakened me very suddenly and I surmised at once that it was a "trembler" so that I lay still and listened and waited for something, I did not know what, but when the next shake came on with an inexpressible twist of motion, like a grappling iron had caught up the bedstead and was swaying it in four directions at one and the same time, I almost imagined that some one during the night had run in a live wire from the street and connected it with the steel springs of my mattress, and I actually sprang out of bed, and striking a light I examined the bedstead to see if there was a steel wire in sight. I concluded that a current was in the air, but that they must have crossed, which would account for the usual twists in the shocks. I have often felt the motion of an earthquake, and had my bedstead to sway, a little, but this late experience was really a "shocking affair," altogether, and put me into a real sweat, but I had lots of sympathy as there "were others."

FRANCIS ADAMS.

July 9, 1906.

Referring to my article of date December 1st, 1904. At that time I was living on Golden Gate Avenue, San Francisco, directly in line with the earth's movements on the 18th of April last. Before this latter period the house had been remodelled and enlarged, turning it into an automobile establishment, and the first story built up in brick. This building was wrecked and afterwards entirely destroyed by fire; other structures in the same locality, new and built up of steel cribs, were crushed entirely by the quake, and the steel griders bent and twisted out of shape; afterwards the fire destroyed all this terrible proof of the mighty trembler and what it demolished in its path through the city. I took particular notice of the damage done by the quake in many parts of the city and at points remote from each other, before the fire reached such localities, and the largest buildings were completely shattered into kindling wood. It will never be known how many human beings were crushed out of shape, as the fire destroyed all traces, even cremating the bones. You have doubtless seen and read more articles upon the earthquake in California, and particularly in San Francisco, than you ever read before upon such occurrences in all your life, and perhaps you have become indifferent to any discription of the event which you may see in print at this late period, yet what I am writing may still attract your attention sufficiently to allow it a space in your valuable columns. Unfortunately we were "caught napping" on April 18 and we got a real earthquake and the "dynamite" was thrown in with the fire, as a side issue; it was more than a "shocking affair" this time, it was a national calamity indeed. Even at this late day, any one who will take the time and trouble to walk over the ground will find evidence sufficient to convince the most skeptical of the terrible force which nature let loose from the depths to rip open the rim of mother earth, and break asunder what man had wrought, whether of bricks, stone or mortar, or even of iron or steel. Nothing stood wherever these rents occurred, steel water mains of immense diameter and extra thickness were cut in two, and in some instances even telescoped one into the other, and thrown out of place for long distances. The brick and arched sewers of the city were broken into heaps at many points. Huge walls of brick and stone masonry, large square storage buildings covering blocks were literally thrown down and piled one upon the other with scarcely one left standing in place. And yet so many accounts of the earthpuake and fire have been written and published to the effect that the quake was a secondary matter and that it was the fire that did the great damage. It were better to tell all the truth now, than to have it come out by and by, because it can't be hidden all the time.

Beats The Music Cure.

"To keep the body in tune," writes Mrs. Mary Brown, 20 Lafayette Place, Poughkeepsie, N. Y. "I take Dr. King's New Life Pills. They are the most reliable and pleasant laxative I have found." Best for the Stomach, Liver and Bowels. Guaranteed by E. S. Leadbeater and Sons' druggists, 25c.

To Remove Freckles & Pimples In Ten Days, Use Nadinola

A new discovery, sold under a positive guarantee and money refunded in every case where it fails to remove freckles, pimples, liver-spots, sun-tan, sallowness, collar discolorations, blackheads and all eruptions of the skin, no matter of how long standing. Cures ordinary cases in 10 days, and the worst in 20 days. After these defects are removed the skin will be clear, soft, healthy and beautiful. No possible harm can result from its use. 50 cents and $1.00 at leading drug stores or by mail.

NATIONAL TOILET COMPANY, Paris, Tenn.

That the earthquake was the cause of the destruction of the city of San Francisco, there can be but little doubt. First the shock came, then the flames burst out at different points and the great conflagration followed. The whole electric system and the gas light connections of the city were literally snapped in two, the crossed wires of the first and the explosions of the latter starting the fire and keeping it ablaze until there was no hope, and water could not quench it. It does not suit the inhabitants and property owners to dwell too much upon the damage done by the quake, because they have their insurance to collect, and they want to rebuild their city, and do not wish to intimidate strangers from coming there to dwell. Still it were better to give all the facts as they exist rather than have false statements on record to be corrected in the future. Numerous theories have been published as to the cause of the disturbance on April 18th. I firmly believe that there has been a violent volcanic eruption at the bottom of the Pacific ocean, and that the wave force came a long distance out of the ocean waters before it struck the shores of the Pacific, coming from the southwest and running to the northeast all the way to the extreme end of Alaska, and that most of the force of the wave was broken by the fact of its coming through this vast body of water from the bottom of the ocean, before it reached the surface, and that had not this been the case, and the full strength of the wave had struck the land, that nothing would have been left on these shores, and that a great tidal wave would have engulfed this coast for 300 miles north and south.

The appearance of new land in Alaska confirms my belief. From last accounts, the water was still boiling around this new island in Alaska which was raised up by the volcanic action from below, and doubtless is the peak of some great mountain whose base stands at the bottom of the sea. I have noticed that the general course or line of our earthquakes extends in the same direction as the mineral belt and fissures in the earth, that is, northeast and southwest. There is something metalic in this idea, and perhaps there is a connection between the magnetic minerals of the earth, their trend toward the North Pole; and earthquakes and electrive force may have more to do with it all than we may imagine. A little incident of the late tremblor might be interesting: Two men were driving along a road seated on a milk wagon on the morning of April 18, at 5.13, and they afterwards stated that the road in front of them moved up and down, and moved as the waves upon the ocean; that the horses were terrified, and the wagon rocked like a boat at sea. Suddenly there was a dead calm and perfect silence, and men and horses simply shook as if chills had struck them all. I saw a dog in a fit, and men and women wandering from place to place, their faces having lost all traces of sanity and some singing: "Heaven is here," thinking that the end had really come.

Alexandria Gazette AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, AUG. 1, 1906

THE OBSERVATIONS of Secretary of the Navy Charles J. Bonaparte in a speech at Convention Hall in Washington yesterday afternoon before the Negro Young People's Christian and Educational Congress were in the main what has been uttered by others during the past two score years. The secretary, among other things, said:

There is no room in America for people who can't take care of themselves. You cannot afford to be lazy and ignorant and vicious, for all around you, pressing you on every side, is a race with which you have to compete, whether you wish or not, and which it will tax all your energies to struggle against.

The negro has often heard similar remarks from observant public speakers, but most of the race seem slow to comprehend their seriousness. Many colored people when they were manumitted seemed to think that freedom necessarily meant exemption from work. The federal authorities during war times built them quarters and issued rations to them which was the cause of this hallucination, and the generations which have followed have in a measure inherited the delusion. There is employment for all honest and trustworthy colored people, male or female, but the allurements of cities like Memphis of the race out of the proper paths of life. A small percentage, however, provide things honest in the sight of all, and enjoy the respect which is their due.

IN CONJUNCTION with the prevailing unrest in Russia an anti-foreign epidemic is said to be raging. A dispatch from Yekaterinoslav says that for the first time a distinct anti-foreign sentiment is manifested among the Russian workmen in that place. The recent attacks on the three foreign managers of works in Yekaterinoslav were followed by an attempt Monday of 8,000 Russians employed at the Belgian glass works at Tranetantinovka to expel 50 foreigners, chiefly Germans and engineers. They were only prevented from so doing by a detachment of dragoons. It is feared that the attempt will be renewed. Many of the foreigners are afraid to go to their works. Russian revolutionists seem to be looking for targets upon which to train their guns. The Jews have suffered untold horrors from those fierce men, churches are being desecrated, confiscations incited, officials assassinated and now it is becoming unsafe for foreigners to live in the Czar's realms.

AT THE session of the American Federation of Catholic Societies in Buffalo, N. Y., a resolution was unanimously adopted denouncing socialism. It was also declared by the federation that it deplored the anarchistic tendencies of the sensational press and indorsed the policy of those journals whose object is fair play, truth and the suppression of indecent details in the treatment of crimes and scandals. The federation evidently discerns the signs of the times and it would be well for the representatives of all Christian denominations to look through the same lenses. Should socialist and anarchist dreams materialize it would be fatal to the State and extremely dangerous to the church. The latter should use all its power in showing the dangerous rocks to which the world seems to be heading.

A DEPARTURE in republican party methods has been made by Chairman Sherman in sending out thousands of letters to members of the party in all parts of the country asking for $1 contributions for the purpose of returning a republican Congress. While the republicans say that they were compelled to take this course on account of the hostility of the trusts, they think it will strike a popular chord. This appeal is to be made also through posters and by means of notices in the party press. It is pointed out that if one-half of those who voted for Roosevelt respond, they will have a fund of $8,812,245. Contributions are not expected to brew Hanna full-dinner-pail-buttons of the vintage of 1900 into the hat.

THE Treasury Department has had two severe shocks recently. Not long ago it found it could buy a government building site in Toledo, Ohio, for $40,000 less than the amount appropriated and now a patriotic citizen of North Adams, Mass., has offered a $30,000 postoffice site for nothing. Commenting upon this the New York Tribune says: "It is only that the government should be in a specially favorable interest price in sight seems occasionally to be honored in the breach rather than in the observance".

GENERAL WOOD cabled from Manila last week that the Twenty-fourth Regiment (colored troops), had engaged a band of Pulajanes in the Visayas, and that the enemy lost 150 while only one American was wounded. This is the way this government is benevolently assimilating and making good Filipinos of the natives of those unfortunate islands.

THE recent remark by Speaker Cannon that "this country is a hell of a success" was followed yesterday by a "prosperity bulletin" issued by the brokerage house in New York of Henry Clews, which amused Wall street. If the wonderful prosperity of this country were examined by a qualified expert, it would be found to be adulterated as badly as our food supply. Unsound prosperity has more deadly poison in it than embalmed beef.

THE Union Sulphur Company hereafter is to have exclusive handling of the output of the sulphur wells of Sicily, thus effecting virually a world monopoly. The anti-trust laws don't seem to work.

THE President has agreed to a "stand-pat" tariff plank in the Ohio republican platform. On the tariff question the President is as variable as a weather vane.

SECRETARY LOEB once more announces in a letter that President Roosevelt will not be a candidate again. It strikes many people that Mr. Roosevelt doth protest too much.

From Washington.

Correspondence of the Alexandria Gazette.

Washington, Aug. 1

In honor of the United States and the protectorate it has established over all republics of Central and South American the President of Brazil announced yesterday through his delegates to the Pan-American Conference at Rio that the Pavilion St. Luis, in which the conference is being held, will be known hereafter as the "Monroe Building." The fact that Brazil's President had paid this delicate tribute to the United States and to Secretary of State Root was conveyed to the State Department today by U. S. Ambassador Griscom, in Rio, who also reports the fact that Secretary Root yesterday addressed the Pan-American delegates. His speech in which he outlined the policy of the United States towards Central and South American countries is expected to have a far-reaching effect and bring forth the fruit of better understanding between this country and its sister republics. It was because of the deeply rooted feeling of distrust for this country on the part of many of the Latin-American nations that Secretary Root decided to attend the Rio conference and become the spokesman for the United States and set at rest the suspicion that it was the ultimate purpose of this country to acquire territory by conquest or otherwise in this hemisphere against the will of its people.

Following is the text of the appeal of the republican national congressional committee of which Congressman Jas. S. Sherman is chairman for dollar subscriptions, which is being mailed by the thousand to republicans throughout the country, and to which President Roosevelt has responded by sending his dollar and his approval of this method of raising a campaign fund:

"To republicans: We are anxious to have every republican in close touch and working in harmony with the republican national congressional committee in favor of the election of a republican Congress. The congressional campaign must be based on the administrative and legislative record of the party, and, that being so, President Roosevelt's personality must be a central figure and his achievements a central thought in the campaign. We desire to maintain the work of this campaign with popular subscriptions of one dollar from republicans. To each subscriber we will send the republican national campaign text book and all documents issued by the committee. Help us achieve a great victory." Every republican office holder in Washington has received one of the little printed slips on blue paper, and an avalanche of dollar bills is expected to descend from the Capitol upon the headquarters of the committee in New York, now that the president has put his O. K. on the scheme.

The delivery of the new Panama canal bonds to the purchasers in the recent bidding began today, and about $7,000,000 worth of them were paid for and turned over. Purchasers have until August 20th to complete payment for their bonds. So far as now known the only person who failed to make good on his successful bid was one who bid for 100 bonds of $100 each at 108½. He notified the department that he was unable to fulfil his contract at that figure. A bank that sent in a successful bid for $50,000 of the bonds by telegraph and another for the same amount by letter, and was allotted a total of $100,000, later explained that the latter was merely intended as confirmatory of the telegram, and that it only needed $50,000. Samuel Byerly, the American Express Company's clerk in New York, who secured over $5,000,000 of bonds, will have his allotment increased by $60,000 because of the failure to place these two lots.

The conference between the representatives of the southern and western railroads and Interstate Commerce Commissioners Knapp, Cockrell and Clements was concluded this afternoon. It was decided that another meeting shall be held later, at which the railroads may be represented by a smaller committee and at which questions pertaining to the scheduling of rates may be more fully discussed. The commissioners did not decide the application for an extension of the time for filing the schedules. This question will be taken up by the full commission some time after August 28. If it is made clear that it is a physical impossibility to get the schedules ready, an extension will be granted.

Most of the shining lights scheduled for addresses at the morning session of the Negro Young People's Christian and Educational Congress failed to put in an appearance when called upon. Rev. W. D. Chappell, of Nashville, Tenn., chairman, was all in a stew about the matter. To add to his embarrassment a delegate from Florida asked the chairman to show him how he was to get his money's worth, after traveling all the way North for the Congress. "You're out of order," declared the chairman "so are the absent speakers," retorted the delegate. Rev. U. Albert Tindley, of Philadelphia, finally appeared to read his paper on "The Value of Daily Reading of the Bible in the Home." The delegate shouted that when this nation is endangered it will not be the soldiers who save it, but the Bible readers.

The remains of William H. Selden, president of the Metropolitan Hotel Company, who died yesterday were last night taken to Lynchburg, Va., where he will be buried today.

News of the Day.

President Roosevelt has contributed $1 to the fund of the republican congressional committee.

The Pennsylvania Railroad announces a reduction of from 2½ and 3 to 2½ cents a mile on one-way tickets and 2 cents a mile on thousand-mile tickets.

Mrs. Agnes Miller, wife of Mr. John P. Muller, Washington correspondent of the Baltimore Sun, died at Providence Hospital, Washington, yesterday.

Immediately after the new railroad rate law goes into effect August 28 the Interstate Commerce Commission will exercise its rights under that law to inspect the books of carriers.

By misrepresenting her age to the magistrate who performed the ceremony in Philadelphia, Elizabeth England, 15 years old, got married on July 19 to George Fong Long, a Chinaman.

The rumor is again current that G. V. L. Meyer, ambassador to Russia, is to become secretary of the navy, and that Mr. Bonaparte will be appointed attorney-general to succeed Mr. Moody.

President Roosevelt discussed the Ohio situation with Senator Dick and Elmer Dover, secretary of the republican national committee, at Sagamore Hill yesterday. Senator Dick after the conference declared the Ohio State Convention will indorse the administration and stand pat on the tariff.

A dispatch from Helsingfors, Finland, dated 11:51 last night says that after stubborn and desperate fighting for nearly 24 hours, a very serious mutiny which broke out Monday night at the great island fortress of Sveaborg, has been suppressed. The casualties are estimated at between 300 and 500 killed. A number of officers are reported among the killed.

Former Senator William E. Chandler, who is in Washington attending the hearing of the Spanish treaty claims commission case, predicts that the adoption by the republican party of a sweeping policy of reform is the only thing that can keep Bryan out of the presidency. He believes the Nebraska man is going to be hard to beat, even under most favorable conditions.

The hanging of Alon Mathis, the negro who criminally assaulted Miss Ethel McClain last Wednesday night, took place at 8 o'clock last night at Mayfield, Ky., in a legal manner in the yard of the county jail. It was only fifteen minutes from the time the jury was sworn in till the negro was pronounced dead. Mathis arrived here at 6:40 o'clock from Louisville in charge of the military company of Hopkinsville.

In the presence of Annie Laurie Poole, the beautiful fifteen-year-old daughter of a prominent Atlanta, Ga., family, whom he had assaulted, Floyd Carmichael, a negro, was literally shot to pieces yesterday afternoon by the male relatives of the girl. When the negro fell, cut and torn by a hundred bullets, it was proposed to burn the bleeding remains, and steps were taken to kindle a fire, but the relatives of the outraged girl decided not to go to this extreme.

Baron Sternburg, the German Ambassador, called at the State Department yesterday and was in conference with acting Secretary Bacon for some time in regard to tariff relations between Germany and the United States. The German Ambassador has no advices to the effect that his government has decided to abrogate the temporary grant of "favored nation" treatment to the United States. Should Germany take such a step it would mean the loss of many millions of dollars to this country.

A dramatic ending of a lover's quarrel came yesterday in Jacksonville, Fla., when Paul Daniel shot and fatally wounded Bertie Tromer and then killed himself. Daniel was jealous and repeatedly threatened to kill the woman. When she saw him coming to the house yesterday afternoon she went into her room, locked the door, and was peeping through the keyhole. Daniel fired through the door, the bullet striking her in the throat and ranging downward. As soon as he realized that the woman was hit Daniel went into another room and shot himself through the heart.

Rear-Admiral Robley D. Evans, commanding the Atlantic fleet, received reports in detail at Newport News, R. I., yesterday of a collision during a fog Monday night between the battleships Alabama and Illinois about eight miles southeast of Brenton's reef lightship. The side of the Illinois was scraped by the bow of the Alabama and several plates of the forward part of the Alabama were dented. It is thought, also, one or more of the six-inch guns on the two battleships were damaged. Admiral Evans said last night that he was satisfied neither ship was injured below the water line.

Judge Owen T. Thompson, of Jacksonville, Ill., announced in Chicago yesterday afternoon that in a letter dated July 17 Mr. Wm. J. Bryan requested that Judge Thompson call upon Mr. Roger Sullivan with a message from Mr. Bryan requesting that Mr. Sullivan, in the interest of harmony, at once resign as national committeeman from Illinois. Judge Thompson says he saw Mr. Sullivan yesterday and delivered Mr. Bryan's message. Mr. Sullivan declined to resign as requested. Judge Thompson thereupon made public a letter from Mr. Bryan declaring that National Committeeman Sullivan holds the office by a fraud and that it is impossible for honest democrats to associate with Mr. Sullivan as a member of the national committee.

According to reports which reached Los Angeles, Cal., yesterday, terrible heat conditions are prevailing in the Inyo county gold fields and adjacent desert, and mining prospectors are dying daily from the heat. W. H. Adams, a mining engineer, who returned to Los Angeles yesterday, states that eight prospectors were brought in dead from the desert while he was in the Panamint area. During his stay at Panamint six bodies were brought there, all victims of sunstroke. At Ballara, he says, the thermometer registered 135 at noon, and at the midnight following had dropped to 114 degrees, which was the average for the three days. In the desert section lying south of Ballara, he says, the mercury went up to 160.

By a vote of 35 to 2 the democratic general committee of Erie county, N. Y., passed resolutions indorsing Hearst for Governor and Bryan for President.

Virginia News.

Attorneys for Campbell county landowners declare the charter of the Norfolk and Western Railroad does not confer the right of eminent domain.

Mrs. E. E. Cockerille, of Marshall, Fauquier county, died Monday aged about forty years. She is survived by her husband and three children.

Ewell Kenneth Evans and Miss Pearl Kinchelow, both of Buckhall, Prince William county, visited Rockville, Md., Monday and were married.

Seventy-three teachers of Winchester and Frederick county are taking the special teachers' examinations now being held at Winchester. In Alexandria but two teachers are taking the examination.

Mrs. Cassie Adams, wife of David Adams and one of the best-known women in western Frederick county, died Monday at her home at Gainsboro, after a lingering illness, aged eighty-eight years.

Walter R. Crabbe died suddenly in the office of the Hotel Lombard in Baltimore yesterday of apoplexy. Mr. Crabbe was a farmer, and resided at Hague, Westmoreland county. He was fifty-nine years old.

A candle at the foot of St. Anthony's statue in St. Vincent's Catholic Church in Newport News, set fire to the church yesterday afternoon. Smoke pouring from the windows attracted the attention of a crowd, and the blaze was extinguished before much damage was done. The image of St. Anthony was demolished.

The Court of Appeals yesterday heard arguments in the mandamus proceedings of Joseph Button against the State corporation commission. The mandamus proceeding is to compel the commission to allow Colonel Button to qualify for the position in which he was elected by the legislature. The argument was not concluded when, in the afternoon, Judge Keith announced the court adjourned until today.

The republican county committee of Fairfax county has issued a call for a mass convention to be held at Fairfax Court House, Friday, August 3. Six delegates and six alternates will be chosen to the congressional convention for the Eighth district of Virginia, which will meet in this city August 14, to nominate a candidate for Congress. A county chairman and the members of the county committee will be selected by the convention.

Secretary Wilson, of the Department of Agriculture, spent three hours in Richmond Monday making an inspection of the Valentine meat juice plant. He did the unusual thing of making a personal inspection of the abattoir and manufacturing departments of the plant, and with his own hand drew the certificate of its good sanitary condition. This plant comes under the new meat inspection law, and Congressman Lamb persuaded Secretary Wilson to give it his personal attention.

Attorney General Anderson filed an appeal for the Commonwealth in the Court of Appeals in Richmond yesterday against the decision of the Corporation Commission in the two-cent mileage law as contained in the Churchman act. In his brief he denies that there is any federal question involved in this case. He draws close distinctions between the Michigan two cent mileage case and the Virginia case, and, therefore, argues that the Michigan case does not rule the Virginia two-cent mileage law.

Holy War Imminent.

The fierce war raging in the Caucasus between the Armenians, Tatars and Russians, especially near the Persian frontier, is assuming threatening dimensions. There is considerable apprehension that it may cause the outbreak of a holy war, for which a serious agitation has been in progress, both among the Shiite and Sunnite Tartars, for a long time.

The news from Borisovska, in Kursk province, is quite alarming, but it is not clear from the meager dispatches exactly what has happened. It is only stated that General Dedvinoff, who has arrived there with rapid-fire guns, posted them in a monastery on a hill overlooking the city and sent in word that if all the arms were not delivered up to him by 4 p. m. yesterday he would open fire. This would indicate that the city is in the hands of revolutionists.

Private letters from northern Lithuania say the peasants in the region around Kovno have ceased to work and that the grain has begun to rot in the fields. The landlords and their families, who are afraid to venture out unarmed, are compelled to take care of their own stock.

It is always well to have a box of salve in the house. Sunburn, cuts, bruises, piles and boils yield to DeWitt's Witch Hazel Salve. Sold by W. F. Creighton & Co., 401 King street.

Denounced Socialism and Anarchy.

At the session yesterday of the American Federation of Catholic Societies in Buffalo, N. Y., the committee on resolutions reported. A resolution was unanimously adopted denouncing socialism. Another resolution adopted condemned all frivolous and unnecessary amusements on Sunday and condemned employers who, through greed and avarice, compelled their employes to work on that day. The resolution recommended that where Sunday work was necessary time be given employes to attend divine services. A resolution on the press provoked a general discussion. In substance, it declared that the federation deplored the anarchistic tendencies of the sensational press, and indorsed the policy of those journals whose object is fair play, truth and the suppression of indecent details in the treatment of crimes and scandals; that the Catholic publications be supported in every legitimate manner, and that Catholic literature be placed on the shelves of public libraries. The resolution was finally referred back to the sub-committee on press.

Colonel Button Sustained.

Richmond, Va., Aug. 1.—The Supreme Court of Appeals this morning made known its decision in the case of Col. Joseph Button versus the State Corporation Commission, declaring that the act of the recent assembly appointing him to the position of Commissioner of the Bureau of Insurance was constitutional, and that the court would issue the necessary writ of mandamus compelling the commission to swear him in as soon as possible. Judge Keith delivered the opinion, of the court, which has only been sitting on the case since yesterday.

[Delegate Caton of this city introduced and secured the passage of the general insurance bill, which created the office of Commissioner of Insurance. Under this bill Col. Jos. Button was elected by the legislature Commissioner of Insurance, and when he presented himself to the Corporation Commission to qualify under the bill on July 1st the Corporation Commission declined to allow him to qualify, holding that the bill was unconstitutional. Mr. Caton insisted before the legislature and has maintained since that the bill is constitutional, and his position has been sustained by the unanimous decision of the Court of Appeals.]

Situation In Sveaborg.

Helsingfors, Finland, Aug. 1—The situation at the island fortress of Sveaborg where a violent mutiny broke out Monday night is still extremely critical.

At this writing the cannonading on the island has ceased. The victory has not rested with the mutineers or the loyal infantry, as neither has been able to entirely dislodge the other from the strongholds in its possession.

The mutineers are reported to be again getting out of hand, and this may lead to further fighting between the rival forces. It is stated that the authorities have offered concessions to the mutineers if they will surrender. The consideration of the terms offered by the authorities may have led to the lull in the fighting.

During the night there was fierce cannonading between the islands entraced in the fortifications, but without material advantage being gained by either side. The mutineers and revolutionary supporters during the night cut the railroad leading to St. Petersburg at several places within a radius of sixty miles from Helsingfors. Sappers and miners have already restored the line, however.

The general strike ordered by the socialists in support of the mutiny is not proving as successful as the leaders anticipated. The strike is only partially maintained. The compositors have gone out in support of the strike.

The crews of four iron clads have mutined, and the sailors are preparing to start with the warship for Kronstadt.

St. Petersburg, Aug 1—M. Herzenstein, a former member of the Doums, was shot and killed today while he was taking a walk with his family. His assailant escaped.

Kronstadt has been cut off from communication with St. Petersburg both the telephone and telegraph lines having been severed during the night. The soldiers and sailors there have for several days manifested an ugly disposition and it is feared that the cutting of the wires may be the preliminary to an outbreak there.

The report of threatened troubles at Kronstadt bears out the idea that the mutiny at Sveaborg fortress was a part of a conspiracy to seize the three great sea fortresses of Sveaborg, Sevastopol, and Kronstadt.

Horrible scenes were enacted during the fighting yesterday and last night. Col. Natcharoff was bayonetted and when he asked to be taken to a hospital, promising forgiveness if this was done, a stone was tied about his neck and he was cast into the sea.

The Finnish Diet met today and adopted a declaration which will be spread broadcast. It is to the effect that in the present crisis it is the duty of every Finnish citizen to assist the authorities in maintaining order and to refrain from unlawful acts.

It is reported here that a squadron of warships, including one battleship has sailed from Reval, for Helsingfors for the purpose of putting down the mutiny.

Emissaries of the revolutionists are working hard among the sailors at Kronstadt to persuade the crews of the men of war to revolt and to refuse on the mutinous ships if they arrive there. The spirit of revolution is making such progress among the sailors that the authorities have removed the breech blocks from the guns of some of the warships and sent troops abroad the vessels to prevent mutinies.

Cummins Victorious.

Des Moines, Iowa, Aug., 1.—Governor Cummins is the victor. He will be renominated for Governor of Iowa today almost certainly by a majority of 108. It is not likely that he will thoroughly dominate the principles of the platform or dictate the nominations of other candidates. The principle of tariff revision and reciprocity leads, but the Perkins stand-patters declare that delegates who vote for Cummins's nomination will vote with them on all other questions. It is Cummins's personality that is winning. The convention will set his course. When the republican State committee had completed the temporary roll of the convention early this morning it showed 856 votes for Cummins and 784 against him, a majority of 74. It may be increased to a majority of 108 this morning. Warren Garst, the choice as lieutenant governor, is in danger.

District caucuses were held this morning and, as a rule were entirely harmonious.

Threatened Strike.

Raleigh, N. C., Aug. 1.—This is the day for the threatened strike of carpenters and some of the allied trades workmen in Raleigh, and it is stated that many of the union workmen will refuse to work again until the demand for nine hours at ten hours pay is complied with. It is impossible to tell just how many are to be affected by the strike, as the day is such bad weather that all outdoor work is suspended on that account. The contractors have so far shown no signs of giving in and say they can fill the places of strikers with non-union carpenters.

Raleigh, N. C., Aug. 1.—At a largely attended meeting of workingmen in the building trades here, today, the proposed strike was declared in effect and over one hundred and fifty unionmen quit work. They ask for a nine hour day, with ten hours pay.

Mutilated by Explosion.

New York, August 1.—A man and a woman, strangers to each other, were shockingly mutilated by the mysterious explosion of a high power bomb in the tenement house at No. 279 Wythe avenue, Brooklyn, early this morning. Both are in the Eastern District Hospital, the man with one hand blown completely off, and his face terribly cut and burned, and the woman with her face and hands badly lacerated. The victims were Thomas Owens, a plumber, 30 years old, who lived on the third floor, with his wife and three small children; and Mrs. Mary Else, an attractive brunette, 30 years old, who with her 10 year old daughter, Lillie, occupied a furnished room in the rear of the second floor of the building. Owens went out on a strike some time ago and is actively identified with local No. 240 Plumbers' Union. Owens was accused of having been responsible for the explosion but he strutly denied it. Mrs. Else says the man tried to enter her room shortly after the explosion occurred.

Bridegroom Murdered.

Charlotte, N. C., Aug. 1.—One of the most shocking crimes in the annals of Gaston county, occurred at an early hour this morning, when J. Y. Kinkaid shot and killed William Brown, a groom of only half an hour, as he stood with his bride at the depot waiting for the train on which the couple was to leave on their honeymoon trip from Bessemer City. The bride was Miss Bettie Perry. All the parties are prominent in the town where the shooting occurred.

There was quite a gathering of the friends of the couple at the depot to bid them good bye, when Kinkaid came up and levelling his pistol at Brown, fired five times in quick succession. Brown fell dead almost at the feet of his bride. The feeling is intense, and Kinkaid is in charge of the authorities. The cause of the shooting is supposed to have been jealousy.

New York Democrats.

New York, Aug. 1.—Compromising their differences so that there would be no line up of the constructive and radical forces the members of the democratic state committee met this afternoon at at the Hoffman House and selected Buffalo, as the place of meeting of the next convention, and fixed the time of meeting September 25. The conservative element ssid that the selecting of Buffalo did not indicate that the Hearst people had won a victory. On the other hand the Hearst people had won the fight to have the convention in Buffalo, and that when the time came, all sides would be united for William R. L. Hearst.

Madine on the Stand.

Pittsburg, Pa., Aug. 1.—"Tom" Madine, the coachman co-respondent in the famous Hartje divorce case, was the star witness for the respondent, Mrs. Mary Scott Hartje, this morning. He denied that the letters stolen from him were letters from Mrs. Hartje. That his room had been rifled, was shown by his testimony that a letter and telegram which reached him in New York, being from John F. Scott, had been taken from his bureau drawer. That his trunk, too, had been opened was shown when Madine said that a letter from his mother had been missed by him on June 18.

Voliva Endorsed.

Chicago, Aug. 1.—Wilbur Glenn Voliva has been endorsed for the position of General Overseer of the Christian Catholic Church at Zion City, by a vote that was almost unanimous. Judge Landis, of the federal court, will at once be notified of the wishes of the former followers of Dowie, and it is thought that he will appoint Voliva General Overseer without delay.

Fifteen Million Catholics to be Enrolled

Buffalo, N. Y., August 1.—By a plan adopted by the convention of the National Federation of Catholic Societies here, 15,000,000 Catholics in the United States and Canada, will be enrolled as members of the organization. The plan makes every American Catholic of mature age, eligible to membership. At present time the federation enrolls 1,500,000 members.

White Waitresses.

Raleigh, N. C., Aug. 1.—For the first time in the history of Raleigh hotels, white girls are being employed as waitresses in the dining-room of the Yarboro House, the leading hotel here. All the negro waiters were discharged after supper last night because the management could no longer put up with their unreliability and poor service.

Trouble in Mexico.

Fort Worth, Tex., Aug. 1.—Reports received here this morning, indicate that trouble has already begun in Mexico. Seven hundred men are on strike in the principal yards of the Mexican Central Railroad. It is feared that the trouble will rapidly spread.

Fight at Mines.

Calumet, Mich., Aug. 1.—Striking miners today attacked miners protected by sheriffs and deputies at the Michigan mines. One man was killed, another fatally shot and many wounded. Forty men were arrested.

To Join the Tacoma.

New York, Aug. 1—The United States Cruiser Columbia went to sea today to join the cruiser Tacoma which is off the Jersey coast to destroy derelicts. A wireless message to the Brooklyn Navy Yard, from the Tacoma asked for assistance but did not say what the trouble was.

New York Stock Market.

New York, August 1.—The street was seldom taken as much by surprise as it was by the declaration of the two per cent. quarterly dividends on Steel Common yesterday. This action in itself caused a general increase in the outside commission business. It was a matter of comment that there was more outside commission buying in the market all through the first hour today than any previous time so far this year. At the same time there was urgent and heavy covering of shorts, but the bears found much trouble in buying stocks except at continual advances in prices. The heaviest gains, of course, were made in the high priced stocks.

County Assessor Waylaid.

J. W. Coulter, of Leslie S. D., Assessor of Stanley County, relates the following: "I was waylaid by a complication of throat and lung troubles, bronchitis, asthma and a terrible cough, which had affected me for years, when I was persuaded to try Dr. King's New Discovery. Relief came almost immediately, and in a short time a permanent cure resulted." No other medicine compares with it as a sure and quick cure for coughs and colds. It cures after all other remedies have failed. Every bottle guaranteed by E. S. Leadbeater & Sons', drug store. Price 50c and $1.00. Trial bottle free.

DIED.

At his home, "Cameron," on Seminary Hill, Fairfax county, at 6:45 o'clock a. m. on Wednesday, August 1st, NICHOLAS DAWSON, aged 71 years. Funeral from Seminary Chapel tomorrow (Thursday) at 5 p. m.

"CARROLTON," a fine cigar, to sell at 5c, just received by J. C. MILBURN.

TELEGRAPHIC BREVITIES.

The American Tobacco Company today declared the usual quarterly dividend of 2½ per cent, and also an extra dividend of 5 per cent on its common stock, payable September 4.

Officers are hunting a negro named Frank D. Channon, who last evening shot and killed Frank Beachman, foreman at a railroad canstruction camp in Guilford county, N. C. Beachman was from Chapin, S. C., and the murder is said to have been a cold-blooded one.

A dispatch from Berlin says that the Samoan affair which has been dragging ever since 1899, has finally been settled through the act on of the United States in paying its share of the $20,000 compensation awarded to sufferers in the Samoan disturbances of 1899. England and Germany paid their money several months ago.

A telegram from Chief of Police of Portland, Maine, says that bogus "Lord Douglass," wanted in North Carolina in connection with marriage to him and the mysterious disappearance of Miss Hood, of Asheville, N. C., has been arrested there.

President Roosevelt today appointed Fred Morris Bearing of Missouri as second secretary of the American legation at Havana, Cuba. At present Mr. Bearing is private secretary to Senor Quesada, the Cuban Minister.

The seven story frame factory building of the Vaughn Calf-Skin Company, in Peabody, Mass., was burned last night, and the loss from damage to stock and building is estimated at from $50,00) to $75,000.

The bodies of Sylvester Albert and William Keller were found in the ruins of the Charles Cooper & Co. chemical plant at Newark, N. J., this morning.

Pope Receives Pilgrimage.

The Pope yesterday received the American pilgrimages conducted by Right Rev. Henry Gabriels Bishop of Ogdensburg, N. Y., and John J. McGrane, of Brooklyn, N. Y. The Pontiff recalled that immediately after his election the first pilgrimage he received was composed of Americans and was presented by Cardinal Gibbons.

Bishop Gabriels read an address, in which he said Catholicism was making rapid strides in the United States, due to the complete freedom which the church enjoyed and the good-will of the American civil authorities. Bishop Gabriels quoted President Roosevelt as saying to him on learning that the bishop was to conduct a pilgrimage to Rome:

"Tell the Pope that I send him my profound regards. I have tried to treat Protestants and Catholics alike, as my latest appointments show. I will try to perpetuate this policy. This republic will stand for many a century. I expect that there will be Catholic Presidents as well as Protestants. I trust that they will treat each other as I have tried to do."

The Pope thanked the bishop most warmly, expressing his great love for the United States and his very highest esteem for President Roosevelt. The Pontiff also presented the leaders of the pilgrimages with medals and consented to be photographed in the group of pilgrims. The Pope is again enjoying excellent health.

Virginians for the Bryan Reception.

Chairman Ellyson of the State democratic committee yesterday received a letter from Norman E. Mack, chairman of the executive committee, requesting Mr. Ellyson to appoint ten persons in this State as a committee to arouse enthusiasm in Virginia, and looking to the appointment of a delegation to take part in the Bryan celebration in New York.

Mr. Ellyson appointed the following on the committee:

First district, T. J. Downing, of Lancaster; Second district, Col. C. Fenton Day, of Smithfield; Third district, E. L. C. Scott, of Ashland; Fourth district, Judge A. D. Watkins, of Farmville; Fifth district, Col. R. O. James, of Danville; Sixth district, Hon. James P. Woods, of Roanoke; Seventh district, Judge R. T. W. Duke, of Charlottesville; Eighth district, Col. George S. Shackelford, of Orange; Ninth district, Hon. P. F. St. Clair, of Giles county; Tenth district, Col. Joseph Button, of Walkers Ford.

CHANGE OF FREIGHT DEPOT.

On Monday, August 6, 1906, the local freight depot of the Washington-Southern Railway will be transferred from Cameron and Fayette streets, Alexandria, to the new building at the union depot, adjoining Alexandria on the west. The present depot will be closed on Saturday night, August 4, after which time all local freight will be received at and delivered from the new depot. Weather Probabilities.

For this section partly cloudy tonight and Thursday; light to fresh easterly winds.

Cornerstone Laying.

The Grand Lodge of Virginia, A., F. and A. M., assisted by Mount Carmel Lodge No. 133, of Warrenton; Cockran Lodge, No. 241, of The Plains; Acacia Lodge, of Clifton; Henry Lodge, of Fairfax Court House; Manasseh Lodge No. 182, of Manassas, and Alexandria-Washington and Andrew Jackson Lodges of Alexandria yesterday laid the cornerstone of the New Masonic Temple of the Manasseh Lodge with impressive and appropriate ceremonies. Besides the members of the lodges named, there were present members from Masonic lodges in Boston, Baltimore, Washington, and Fredericksburg.

Judge C. E Nicol, of Manassas, introduced the orator of the occasion, Judge R. T. W. Duke, of Charlottesville, who delivered an address on the principles of Freemasonry. At the close of the formal exercises a banquet was held.

The following officers of the Grand Lodge was present: Grand Master K. Kemper, Alexandria; Grand Secretary Charles N. Nesbitt, Richmond; Grand Treasurer Fred Pleasants, Richmond; Grand Chaplain George H. Ray, Grand Junior Deacon William L. Andrews, Grand Tyler James A. Pauline. The other offices were filled by appointments from local lodges.

The Masonic Temple will cost $9,000, and will be built by I. E. Cannon, of Manassas.

Body Discovered.

On complaint of W. D. Hudson, druggist, corner of King and Payne streets, last night, the police forced an entrance into the house, 225 north West street, and found the body of Frank Dean, a colored laborer, who had lived alone there. He was last seen alive the latter part of last week and had evidently been dead several days. There were no marks of violence on the body, which was turned over to the undertaker.

Justice Edgar E. Padgett this morning held an inquest over the remains. The jury was composed of Messrs. W. H. Sweeney, foreman, E. R. Boyer, C. J. W. Summers, Richard Gibson, Thos. Carter and W. W. Demaine.

The jury returned the following verdict:

"We, the members of the jury, find that Frank Dean came to his death from causes unknown to us."

Dean was last seen alive on Friday night.

Little Hunting Creek Bridge.

The new bridge of the Washington, Alexandria and Mt. Vernon railway over Little Hunting creek which has been under construction for several months past, has been completed. The erection of the new bridge was rendered necessary by the changes that have been made in the grade of the railway within the past year in order to do away, as much as possible, with the steep ascent from Little Hunting creek to Mt. Vernon. The new structure is about eighteen feet higher than the bridge it replaces, and is about twenty-eight to thirty feet above the level of the creek. In changing the grade of the tracks the fill was started at Hunter's Station, near Fort Hunt, and was carried to Little Hunting creek. On the Mt. Vernon side of the creek a fill was also made, and at Mt. Vernon the tracks were lowered several feet so that the greater part of the steep grade has been reduced

Death of Capt. Dawson.

Captain Nicholas Dawson died at his home, "Cameron," on Seminary Hill, Fairfax county, near this city, at 6:40 o'clock this morning after a long illness. The deceased was born at Springdale, Loudoun county, April 20, 1835. At the outbreak of the civil war he became a member of the Seventh Virginia cavalry, and was later commissioned as captain. He served gallantry throughout the four years' conflict and at its close engaged in business in Baltimore in which he continued till forced to retire on account of ill health. The deceased leaves a widow, who is a daughter of the late Gen. Samuel Cooper, Adjutant General of the Confederate army, and two sons and one daughter. The funeral will take place from the Seminary Chapel tomorrow at 5 o'clock p. m., and will be attended by Lee Camp, Confederate Veterans, of which the deceased was a member.

Fined Two Dollars Each.

Three youths living in the southwestern section of the city were before the Police Court this morning charged with breaking a limb from the peach tree of a resident of that neighborhood. They were fined $2 each. There is complaint every summer of the depredations made by youngsters on fruit trees in all sections of the city. In most cases the fruit is pulled before it is ripe and wantonly destroyed. A gentlemen living in the vicinity of the old fair grounds says unripe pears are pulled from his trees daily by boys and used by them as baseballs.

Sent to the Reform School.

Patrick Buckley, a boy, was arraigned in the Police Court this morning on two charges—assaulting a small boy named Joseph Mitchell and with trespassing on electric cars. He was dismissed on the first charge but sent to the Reform School at Laurel, Va., on the other. Buckley has been in the Police Court several times recently on various charges and has generally been dismissed with an admonition. Justice Caton deeming him incorrigible, concluded to send him to the Reform School.

Assaulted by a Woman.

Among the cases before Justice Caton in the Police Court this morning was that of Bessie Johnson, who was charged with assaulting George Griffin. The latter stated that he was passing the woman's house after 11 o'clock last night when she called him vile names and threw a beer bottle at him which struck him on the back. Officers Lyles and Beach arrested the Johnson woman who abused them while in the discharge of their duty. She was fined $10.

Republican Meetings.

The few republicans in this city it seems are divided into two factions and yesterday held two meetings to elect a city chairman, a city committee and delegates to the congressional convention to be held in Alexandria on the 14th. The methods adopted yesterday were similar to those of readjuster days and savored of sharp practice to say the least. In the latter part of June the chairman of the city republican committee called at this office and asked that mention be made of a republican mass meeting to be held at Schuler's Hall on July 31. No hour was mentioned. The general impression seemed to be that the meeting was to be held at night. However, between 12 and 1 o'clock yesterday a meeting was held at the home of Mr. Frank Phillips, the chairman of the committee, at which, it is said, four persons were present and at which Mr. Phillips was re-elected chairman of the city committee. It is also said that members of the city committee and delegates to the convention were also chosen, but their names have not yet been divulged. Just as the Gazette was going to press yesterday evening Mr. Phillips telephoned to this office that a committee and delegates had been elected and that their names would be given out today, but it is understood that Mr. Phillips left for Norfolk last night taking the list with him. Of course there will be a contest among the delegates when the convention meets here on the 14th. The matter of the city chairman and committee will be decided later.

Another meeting of the republicans of this city was held in Schuler's Hall last night. There were twenty-two persons present. In the absence of the chairman, Mr. Frank Phillips, who had held his meeting, on the quiet, earlier in the day, Mr. J. A. Eggborn was elected chairman and Mr. Paul Hulfish secretary. The chairman stated that the object of the meeting was to elect a city chairman and committee and also to name delegates to the congressional convention to be held in this city on the 14th instant.

Mr. Joseph L. Crupper asked if an official call had been made by the committee for this meeting. The chair replied that the call had been made by the chairman of the city committee some time ago for the 31st of July. As a member of the city committee, he had not been present at any meeting where the committee had ordered a call for this meeting. Mr. Crupper said that he did not wish to object to the holding of this meeting, but he thought that these meetings should be held in an official manner. Under the plan heretofore followed a notice was published in the Gazette ten days previous to the meeting. In this instance a paragraph had been published in the locals of the Gazette stating that a meeting of republicans would be held in Schuler's Hall on July 31st, without saying at what time it would be called to order. He thought that these meetings should be held in the same manner as any other meeting; as it was now, the republicans would be held up to ridicule for conducting their affairs in such a way. He did not believe in this slip-shod manner. As there were so many representative republicans present, however, he was willing to proceed with the meeting.

Mr. W. P. Graves said that so long as the committee had a slip-shod chairman, as was the case now, republican affair swould go on in an irregular manner.

There were no colored people present at the meeting.

After some further exchange of remarks the election of a chairman and city committee and delegates to the congressional convention was gone into.

W. P. Graves was elected city chairman and the following committeemen were chosen.

First ward, W. H. P. Kelly and Charles Dean; Second ward, Charles M. Hancock and S. A. Forrest; Third ward, J. A. Eggborn and Paul Hulfish; and Fourth ward, Frank Evans, and Lorenz Wolford.

W. P. Graves, Charles M. Hancock, J. A. Eggborn, and Joseph L. Crupper were elected delegates to the Congressional convention, and Frank Boyer, S. A. Forrest, Charles Dean, and Emmet Kelly were named as alternates.

Interesting Relic.

Col Francis L. Smith, of this city, has an interesting memento of the battle of New Market, in which engagement he was severely wounded. Col. Smith was at that time a member of the Corps of Cadets of the Virginia Military Institute, Lexington, and participated in the above named battle May 15, 1864, when the Corps of Cadets "marked time" under the concentrated artillery and musketry fire of the enemy. Just as Cadet Smith had raised his gun to his shoulder, he was struck by a minnie bullet which entered his chin, fractured his jaw-bone and passing out of his neck lodged in and fractured his collar-bone, inflicting painful and dangerous wounds. This minnie bullet has recently been handsomely mounted by the Bailey, Banks & Biddle Company, of Philadelphia, so as to resemble an acorn, upon the cap of which is a suitable inscription. The indented end of the bullet shows the serious work it did. Naturally, Col. Smith prizes this memento of the war very highly, connected as it is with such an epoch in his own life and in the history of his native State.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Bessie Johnson, arrested by Officers Lyles and Beach charged with assaulting George Griffin and with using abusive language toward the officers, was fined $10.

Patrick Buckley, arrested by Officer Jones charged with assaulting Joseph Mitchell, was dismissed. Buckley was also charged with trespassing upon electric cars, and he was ordered to be sent to the Reform School.

Three youths, arrested by Officer Garvey for destroying property in the southwestern section of the city, were fined each.

Charged with Theft of Boat.

Acting Chief Smith this morning received a message from Washington stating that five young men had stolen a bugeye in that city and proceeded to this place. The acting chief sent Officer Sherwood to the river front where he found the boat with the young men aboard. The owner of the bugeye had in the meantime arrived here on the Washington police boat Vigilant. Officer Sherwood turned the boat and the prisoners over to the officers of the Vigilant and they were taken back to Washington.

A son of Officer Wm. Lyles was badly bitten by a dog yesterday.

Personal.

Mrs. and Mrs. Geo. W. Dannettell, of Evansville, Ind., announce the marriage of their daughter, Ethel, to Mr. Mahlon L. Milstead, recently of this city, but now of East St. Louis, Ill., Tuesday, July 24.

Tomorrow's Excursion.

Every arrangement has been completed for the excursion on board the palace steamer Jamestown tomorrow night by Fitzgerald Council, No. 459, Knights of Columbus. All who attend are assured a most pleasant evening. The purchaser of every ticket will be entitled to a voice in the disposition of two round trip tickets to Norfolk or Virginia Beach. The steamer will leave the Norfolk and Washington steamboat wharf at 7:30 o'clock.

Colored Mail Carrier.

Lawrence Arnold, colored, entered upon his duties this morning as a substitute mail carrier. Arnold stood at the head of the eligible list in the civil service examination, and, according to the law, was entitled to the first appointment. The mail delivery service was instituted in this city twenty years ago, and this is the first time a colored man has been engaged in the same. Arnold takes the place of Edward Power, resigned.

Sultry Night.

The prognostication sent out yesterday by the Weather Bureau to the effect that cooler weather would prevail last night was misleading, as sultry conditions prevailed. The air was charged with humidity and zephyrs were few and far between, while mosquitoes were numerous and annoying. Shortly before day this morning an easterly breeze caused the temperature to fall somewhat.

New Freight Depot.

As was stated in yesterday's Gazette, the freight depot of the Washington-Southern Railway will be transferred on Monday next from Cameron and Fayette streets to the new building at the union depot, where all local freight will be received and delivered. The present depot will be closed Saturday night. The Fayette street depot has been in operation for about 80 years.

Big Collection.

Police Justice Caton today deposited with the City Treasurer a check for $745, the amount of collections from fines during the month of July. This is said to be the largest amount ever collected from fines during one month. During the month he tried 217 cases.

Gen. Hugh Mercer.

We have recently received from the author, Judge John T. Goolrick, of Fredericksburg, his "Life of Hugh Mercer," published by the Neale Co., of New York and Washington, for which acknowledgment is made.

Next to Alexandria, the place most intimately associated with George Washington is Fredericksburg, where his early life was spent and to which he often returned in later years. There he persuaded his friend Hugh Mercer to settle after the close of the French and Indian War, and an intimacy sprang up between them which was only severed by the heroic death of Mercer. Judge Goolrick has an attractive subject and he tells his story well. This biography is one of those stirring tales with which that dramatic period of our history is so full, and the character of the man is such that it is an excellent book to put into the hands of the young. Fidelity to principle, fixedness of purpose, faithfulness in the discharge of the obligations imposed by citizenship, with a fearlessness that knew no limit, when duty and obligation joined in demanding energetic action, such were the distinguishing traits of his character. These he learned in a good school—that of experience. Loyal to Scotland and its traditions, he fought on the bloody field of Culloden, and after his exile he transferred that loyalty to his adopted country. In the Indian wars, when wounded and pursued by the savage foe, he suffered for the necessaries of life. As a country doctor his life was spent in ministering to the wants of others and of relieving the distressed; as a mason, as a churchman, and as the head of a family, his was a spotless, stainless life. As a soldier, he was vigilant, obedient and loyal, marching onward even though confronted by dangers seemingly insurmountable. Truly his life was a strenuous one.

And as he lived so he died. Most of our readers are familiar with his heroic death on Princeton field, when the fate of the struggling colonies hung in the balance. This was the turning point in the revolution, and Mercer had much to do with planning this expedition, which turned out so gloriously for the patriotic cause but which cost him his life. The story is briefly but tersely told, and yet nothing has been sacrificed by its being condensed but rather its value is enhanced for the busy man of the present day. The author also gives a short account of Mercer's friends, Washington, John Paul Jones, Madison, Monroe, and Gen. George Weedon, and others, who used to gather round the festive board at the old "Rising Sun" tavern. There is also a genealogical table of the descendants of Hugh Mercer at the end. The book is attractively gotten up, clear print, good paper, and many handsome illustrations, and it would be a valuable addition to any library, particularly those interested in patriotic subjects. The writer, Judge John T. Goolrick, is a prominent lawyer of Fredericksburg and well-known to many Alexandrians, and his book will be read, we think, with much interest.

Our Annual August Sale of

BED BLANKETS.

(Manufacturers' Seconds)

Begins This Wednesday.

This August Sale of Blankets is an annual event with us—comes regularly with the season—and is welcomed by housekeepers, newly married people, proprietors of hotels and boarding-houses, and parents who have boys or girls going away to school.

It is a sale of fine, fluffy Wool Blankets, practically perfect, at an average saving of a quarter to a third on the regular prices.

These Blankets are known to the trade as "seconds;" that is, they are not absolutely perfect and up to the high standard set by manufacturers careful of their reputation. This lot comes from one of the leading manufacturers in the east, and the imperfections are very slight and less noticeable than ever.

Sizes for single beds, three-quarter beds, double beds, extra wide beds, twin beds, cribs; white, red, gray and plaid mixtures.

We offer them at a quarter to a third less than they would cost you if they were strictly perfect.

And having purchased these Blankets before the advance in wool makes the saving even greater. There are about 300 pairs in the lot.

10-4—$2.75, $3.50, $3.75, $4.25 and $4.50 a pair.

11-4 — $3.00, $3.25, $3.75, $4.50 to $8.50 a pair.

12-4—$5.25, $6, $6.50, $7.75 to $9 a pair.

Crib Blankets — 30x40 inches, 85c a pair; 36x50 inches, $1.25 a pair.

Intellectual Drinks.

"Tea and coffee are drugs—drugs solely," said a chemist. "They stimulate the brain, and the reaction from the stimulation is not perceptible; hence tea and coffee are excellent brain spurs. For a little while they do actually make us more intelligent than we naturally are. That is why they are so popular. It is why we chemists call them intellectual drinks. Alcohol, whether it be taken in the form of champagne or beer or whisky, is not an intellectual drink, but the opposite. From the beginning alcohol stupefies instead of enlivening the brain. But it makes us talk! If it were not enlivening how should it make us talk? Alas, alcohol makes us talk, but we say under its influence the things we should not. Alcohol deadens the inhibitory, the prohibitive centers of the brain. It stupefies the brain muscle, which knows what things should not be told, and hence, while drinking we talk; but, oh, the things we say, and, oh, how we blush in the cold gray light of the morning after to remember what we said!"

"Tarry" Gould's Long Cruise.

"Tarry" Gould was a well known character in and around Danvers years ago, but very few knew what gave him the nickname of "Tarry." He was very fond of telling about the long sea trip he enjoyed when a young man. It seems he thought he was tired living ashore, so he went to Danversport and shipped on a coasting schooner bound for Philadelphia. He used to say, in telling his story: "I did expect to enjoy that trip so much. Well, we cast off from the wharf and started down river. When we got to Beverly bridge (a mile or so from the wharf) I made up my mind that I had got enough of it, and as we passed through the draw I climbed to the bridge and started for home, and, if you will believe me, I could not get a wink of sleep that night until they threw water on the outside of my bedroom windows to make it seem I was aboard ship."—Boston Herald.

Scraps From the Sea.

"There is often found at sea a life belt or some sort of a life preserver floating on the water that bears the name of the vessel to which it belonged," said a veteran sea captain. "As soon as it is reported there is at once a great amount of speculation on the part of those interested in the ship as to whether the vessel is safe or not. This increases to alarm if the ship is any way overdue. In most instances the preserver has been washed from the deck by a wave or has fallen overboard, and the alarm is entirely without foundation. I remember an instance in which my boat broke a crank shaft. We were eleven days overdue, and we were given up for lost because a raft that should have been fastened on the deck was washed overboard and picked up by a faster liner. I have sometimes thought it would be a good thing if these minor articles were not marked."

South Sea Island Customs.

When a south sea island mother wishes to chastise her child she seldom resorts to slapping, and slippers, of course, she has none. Instead of using the forms of punishment customary among civilized mothers she pulls the child's hair or bites some part of the body, generally the fleshy part of the arm. In wandering about the village one sees many children having on their bodies scars produced by wounds inflicted by their mothers' teeth. When a mother wishes to caress her child she deftly draws her thumb across its eyebrow or cheek or gently seizes its cheek between her teeth. The rubbing of noses is also a mark of affection among the Kingsmill islanders, as it is among the Maoris of New Zealand.

Hot Soda Baths.

Hot soda baths are recommended by some persons for rheumatism, and the way they are taken is this: Fill the tub half full of water as hot as can be borne, add half a pound of common baking soda and immerse the body for at least twenty minutes, keeping up the temperature by the addition of hot water from time to time. Vaseline or cold cream should be rubbed into the skin after the latter has been dried in order to replace the natural oil.

A Bit of English Humor.

Recently the London Morning Post contained the following advertisement:

"Wanted.—A nurse for night duty only; one thoroughly accustomed to bottle babies."

This called forth the remark from the British Journal of Nursing:

"To bottle babies? How is it done and for what purpose are these innocents used when bottled?"

A Bright Boy.

"Your son, I believe, made some experiments while at college?"

"Yes; he discovered what he calls his 'scientific paradox.'"

"What is the nature of it?"

"He succeeded in demonstrating that debts are expanded by contracting them."

Given and Taken Away.

A tiny bridesmaid at a wedding the other day surveyed the departing bride and groom with a gloomy brow. "Oh, dear!" she pouted. "Sister was going to get married today and have lots of fun! And now that man's taken her away!"

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Franklin on Catching Cold.

It is well known, says the New York Evening Post, that Franklin made a particular study of colds and had his own theory about them, which we believe is pretty much the theory of today. One of his assertions was that catching cold does not come from mere cold, but from unequal temperature over the body and from undistributed moisture. To prove this he made a number of observations on occasions when he did and did not suffer. A few of these follow:

By putting on a damp shirt on a dry body—yes.

By putting on a dry shirt on a wet body, though this wets the body ten times more—no.

By sitting in a room where the floor has been newly washed—yes.

By going into a river and staying there an hour (no sheets so wet)—no.

By wetting the feet only—yes.

By wetting all the clothes through the body and wearing them a whole day—no.

By sitting in a room against a crevice—yes.

By sitting as long in the open air—no.

How Cyanide Was Discovered.

Scheele in 1783 laid the foundations for the manufacture of cyanide of potassium. With prussiate of potash for its base, dried animal matter of any and all kinds was dumped into the superheated vessels containing the potash, together with iron filings and borings. A stonelike black mass resulted from the cooling, and other processes brought the final lemon colored crystals which resulted from evaporations of the solutions. From these crystals prussic acid was evolved, of which a 2 per cent solution is the pharmaceutical preparation, yet so powerful that four drops will kill a large dog. A chemist, putting a cyanide solution in a gold lined dish in 1844, discovered that the gold was dissolved in the liquid. This was the beginning of the gold plating process by the use of cyanide and the further involvement of the poison came about in electroplating, in photography and in treating refractory gold ores.—Technical World.

A Canadian Paradise.

Temagami is shaped like an octopus, with long stretched out arms, and its shores are indented with deep circling bays, island strewn and culminating in sharp points and curves that add to the beauty of this magical scene. "The lake of deep waters" is the meaning of the Indian word, and they lie very deep and cool in their bed of granite, in stillness a perfect mirror, in storm darkly menacing, with foam edged waves showing fanglike teeth. Being a hundred square miles in area, Temagami forms one of Canada's great natural reservoirs. Mighty rivers from the height of land to the north flow into it, and it in turn feeds the streams that flow southward, carrying their life giving waters through the forests to the peopled lands below. There are 1,400 islands in the lake, and the government has included the whole area in a magnificent forest reserve of a million and a half acres.—Kate Westlake Yeigh in Four Track News.

Jammed Fingers.

Few people have escaped jammed fingers, and as the pain caused when the finger is jammed in a door is excruciating in the extreme for the first few minutes it is well to know of some means of relief. The finger should be plunged into water as hot as can possibly be borne. This application of hot water causes the nail to expand and soften, and the blood pouring out beneath it has more room to flow. Thus the pain is lessened. The finger should then be wrapped in a bread and water poultice. A jammed finger should never be neglected, as it may lead to mortification of the bone if it has been badly crushed, and amputation of the finger must follow. Jammed toes are usually caused through the falling of heavy weights and should be treated in the same way as a jammed finger.

Half The World Wonders

How the other half lives. Those who use Bucklen's Arnica Salve never wonder if it will cure Cuts, Wounds, Burns, Sores and all Skin eruptions; they know it will. Mrs. Grant Shy, 1130 E. Reynolds St., Springfield, Ill., says: "I regard it one of the absolute necessities of housekeeping. Guaranteed by E. S. Leadbeater & Sons' druggists, 25c.
